

FINAL ATTEMPT To NOTIFY

Beware

of mail scams

What to look out for:

- important looking envelopes from overseas marked urgent and confidential
- offers to earn big money with no risk
- request for money to claim a prize or pay for a free gift
- pressure to respond to the offer now
- request to reply to a post box number, often overseas
- lotteries that are not local and do not have valid permit numbers

If you think it's a scam, then why not beat the cheats
